Subject: MidCoast process-Draft STAKEHOLDER LIST
Mid Coast stakeholder list 5.18.11 DW2.doc

Hi Nina,

The attached draft stakeholder list includes participants on the original MidCoast TMDL Technical Advisory Committee (2008-2009) and has been expanded considerably to include federal, state and local government agencies' contacts, NGOs, and large private landowners. These are the contacts we've identified thus far, so I am copying other team members for review at this time. We haven't included a list of interested/concerned citizens to ensure privacy.

We obviously don't envision holding meetings with such an extensive list, but some of these individuals or organizations may be asked to participate in issue-specific or geographic specific working groups to provide area-specific expertise or ensure serious concerns are adequately considered and addressed.

Based on my conversation with Oregon Consensus, their plan was to contact several of the original TAC members to plan the Convening Assessment scope of work for an Interagency Agreement with DEQ. They would then conduct additional interviews (phone or in-person) once under contract.

Cheers,

R. David Waltz

Hi Nina,

I am out of the office today (and amazingly, it's sunny!), so I will send more information on Monday.

The sort version: A draft Interagency Agreement with PSU/Oregon Consensus is in our Business office for review. I should get that back the week of May 23 to make any needed revisions and send to PSU for review and signatures (if they concur).

OC would begin the phone interviews shortly thereafter.

Cheers, David

Hi David,

Could you tell me what the timing is on the Mid-Coast process interviews? (I have not heard from Oregon Solutions.) Also, could you provide me with a list of environmental/fishing/tribal/municipal groups/individuals who are on the list to contact. I would like to make sure that it is as complete as possible.

Thanks,

Nina
